VALDELOS FRAILES

## VALDELOS FRAILES

### Our History

In the area of Cubillas de Santa Marta, the family of Carlos Moro has been growing vines and making wine in the traditional way for ages; elaborating a wonderful Rose.

In the year 1998, Carlos Moro decided to bet on innovation and began the production and elaboration of the red ageing wines.

In 1999 the Valdelosfrailes Winery was built; extending The Moro family's own vineyards with 50, 75 and 100 year-old vines from the Las Costanas and Corcos Estates .

The premises include an elaboration cellar and a bottling and ageing cellar. These are modern facilities with high technology equipment which produces top quality wines.

The winery is devoted to the highest quality, with a rigorous elaboration and a limited quantity of product. The wines elaborated are: young red (Crianza) wines, special Reservas and Estate wines. The grape varieties are Tinto Fino, Verdejo and Garnacha which come from our own vines in Cubillas and Quintanilla de Trigueros. The winery can be visited seven days a week.

Since its first elaborations, the Valdelosfrailes wines have received international awards and achieved the highest scores in specialized magazines.
